Preface

This book of tunes is meant to be a companion to the Psalter in Arabic. It contains in Staff Notation all the tunes in corresponding consecutive order that are in the Psalter in the Tonic Sol Fa characters.

The book is intended for the use of people who do not know the Tonic Sol Fa system. It will enable them to unite with those who understand the Sol Fa system in the use of any tune or selection in the Arabic Psalter.

It will provide, also, a very useful collection of sacred music for use on piano or organ for the ever growing number of Egyptian young people, who in School and College, are learning, or have learned music in the Western Notation.

Sincere thanks are hereby given to the authors and publishers of tunes for their kind permission to use their music in this book; also to the Committee that compiled the book and adapted the tunes to the various selections of the Psalter.
